

First Responder Fire Training

Our Aims:

To provide candidates with a comprehensive understanding of fire and the associated dangers involved in safely and effectively responding to an emergency fire situation.

About the course

The course is presented in both theory and practical methodologies thereby giving participants an understanding of fire. The topics discussed in the theory competent include;

- Timely notification of emergency situation
- Fire triangle
- Different classes of fire
- Types of firefighting equipment
- The dangers associated with first attach firefighting
- Safety procedures
- Dangers of smoke
- Firefighting tactics
- Practical firefighting

Duration of Training

2-3 Hours (depending on numbers)

Location:

CE Training provides flexible training. Training can be delivered at one of our venues or if a group/company booking, we can deliver training and assessment on your premises.

Assessment

This course will be assessed by means of a short theory assessment and also by observations from the trainer through practical application.

Participants will undertake a number of firefights in the practical component in order to get the "feel" of a real "live fire".

For further information and cost, please email CE Training Consultants admin@cetraining.com.au or phone us on 63729009. One of our staff would be only too happy to discuss your enquiry.
